You are the first organization to register for GM SupplyPower using the Parent Supplier Code. Your organization will be designated the **Service Authority Organization (SAO)**, or parent administrator. As the administrator of a SAO organization, you are responsible for administering access for and all its child codes for GM SupplyPower. [Click here](#) to learn more about SAO organizations.

Should other organizations request access to GM SupplyPower for or any of its child codes, Parent Supplier Code, you will be responsible for approving or rejecting those requests. Similarly, you will be responsible for administering access for any applications that may be requested by organizations sharing access to

Why is the Service Authority Organization needed?

The Covisint Connection and Administration (CCA) tool allows multiple independent administrative organizations for a single Legal Corporation. Some services, such as the Ford and DaimlerChrysler Supplier Portals, require relationships between these organizations based on the Supplier Code. The Service Authority Organization is responsible for all organizations with the same parent supplier code.

Service Authority Organization Responsibilities

- Approve Requests for the service submitted by Related Organizations
- Approve and Revoke Site Codes grants to Related Organizations
- Revoke access to the service from Related Organizations

Note that the Service Authority Organization designation may be transferred to any other independent CCA organization sharing the same parent supplier code for the service.
